Approved For Release 2004/01/22 : CIA-RDP82-00457R006900630012-8

SECONTIAL	
2	25X1

The information that the nose wheel was not retracted indicates that the aircraft seen aloft probably made test flights.

(3) The aircraft types cannot be definitely identified, but type 1 is apparently a fighter with an in-line engine, and type 2 a fighter with a radial engine.

(4) The report is the first information on jet aircraft in Hungary.
